

# Assignment 01

---

200: Pts

Due: Jan 25, 2022

Install PostgreSQL and your Virtual System

Create a table `hw` and insert a row into it.

```
$ psql
philip=> create table hw ( n int );
TABLE CREATED
philip=> insert into hw ( n ) values ( 3 );
INSERT 0 1
philip=> select * from hw;
 n
---
 3
(1 row)
philip=> \q
$
```

Turn in - a image screen capture of your running `psql` from your account on the virtual system.
